# W7-8 Assignment
Team Benz: Shivika, Anjali, Lukas, Abhiraj

Original wireframes design for SHRIDE:

[User feedbacks](#):

- The wireframe wasn't quite self explanatory
- There were uncommon abbreviations used and the phrases of those abbreviations were missing
- Pick up of the user's choice was missing
- The user wasn't able to choose the favorite driver from the choice provided on the second page
- The user wasn't able to see the listing of the favorite drivers
- User wants a full highlighted box for pickup time, destination time, dollar amount instead of a radio button

[Usability Sessions](#):

- Were the wireframes clear to you?
  - 75% said Yes
- Did the Wireframes meet your expectations?
  - 50% yes
- Was there any part difficult to understand? If yes, then please explain?
  - 50% found some parts of the second page hard
- Was there anything that was not as per your expectations?
  - 1 person found the favorite driver information missing
- Do you expect any change in the design?
  - 1 person wants change in the design on the second page

All users were able to complete the tasks.
